

Document	Certificate of Analysis (COA)	Document Code	UEC-COA-CMO-2026-01
Manufacturer	UE Chemicals, Bangkok 10110, Thailand	Revision	Rev. 1.0
Contact	info@useful-chemicals.com +66 951 690 848	Effective Date	2026-03-10

This certificate has been reformatted under UE Chemicals branding. It is presented as a professional release document; however, final customer issuance should use the actual batch number, manufacturing date, test date, analyst sign-off, and laboratory record for the specific lot supplied.

1. Batch Information

Product Name	Caluanie Muelear Oxidize
Batch Number	CM-2026-001
Date of Manufacture	2026-03-01
Date of Analysis	2026-03-08
Retest / Expiry	2028-03-01
Supplier	UE Chemicals
Origin	Bangkok 10110, Thailand

2. Analytical Results

Test Parameter	Specification / Result / Method
Appearance	Spec: Clear to slightly amber liquid Result: Conforms Method: Visual inspection
Density	Spec: 1.10 - 1.30 g/cm ³ Result: 1.20 g/cm ³ Method: Density meter / equivalent validated lab method
pH	Spec: Acidic Result: Conforms Method: Calibrated pH measurement
Solubility	Spec: Miscible with water Result: Conforms Method: Solubility observation
Oxidizing Power	Spec: Premium industrial grade Result: Conforms Method: Internal QC performance assessment
Purity / Quality Release	Spec: Commercial release standard Result: Passed Method: Internal QC review against approved release criteria

3. Packaging and Storage

Pack Sizes	1 L, 5 L, 10 L, 25 L, 200 L drums
Storage Conditions	Cool, dry, well-ventilated area in sealed original packaging

Shelf Life	24 months from manufacture under recommended storage conditions
-------------------	---

4. Release Statement

Quality Status	The batch represented by this formatted COA meets the current commercial specification framework for Caluanie Muelear Oxidize as maintained by UE Chemicals.
Accreditation Note	No third-party accreditation claim is made in this reissued template unless supported by the issuing laboratory's current certificate.
Customer Note	For release to a customer, replace the placeholder batch metadata and results above with the actual lot-specific laboratory record.

5. Authorization

Authorized by Quality Assurance Department UE Chemicals	Issued for UE Chemicals info@useful-chemicals.com +66 951 690 848
--	---

This document is intended as a professionally formatted COA template and commercial release summary. It should be finalized against the actual lot history and laboratory results before external issuance.
